

## Develop your own Newspaper Task

For this task, students will need their ipads, netbooks and a pen and paper to write with.

The students will have to research one of the topics and write a report using either word or powerpoint.

The idea behind this task is for students to get into a group of 4-5 and make their own newspaper.

All the sections can be included and each student can be given a role or a specific job to do

Eg : Sections to look at

1. Sport
2. Weather
3. Entertainment
4. World News
5. News from home
6. Interviews with stars or important people like the Prime Minister
7. Important events that have happened or are upcoming
8. A top story

Give your Newspaper a name too and make sure each student has their name on their article for the paper.

Teachers can help the kids brainstorm some ideas before starting

- Make sure your report is
  - In powerpoint form or word
  - Has a heading or title page with the name of your topic and your name
  - Has some pictures and is well presented

Have fun and enjoy researching
